I do not put the truth too strongly when I say the most potent influence for good say the most potent influence for good on earth is a good editor and the most potent influence for evil is a had one. The best way to re-enforce and improve the newspaper is to endow editorial professorates. When will Princeton or Harvard or Yale or Rochester lead the way?

Another blessing of the newspaper is the foundation it lays for accurate historical that time in which we live.

tory of the time in which we live. We for the most part blindly guess about the ages that antedate the newspaper and are dependent upon the prejudices of this or that historian. But after a hundred or two years what a splendid opportunity the historian will have to teach the people the lesson of this day. Our Bancrofts got from the early newspapers of this country, from the Boston News-Letter, the New York Gazette, News-Letter, the New York Gazette, and The American Rag Bag, and Royal Gazetteer and Independent Chronicle, and Massachusetts Spy, and the Philadelphia Aurora, accounts of Perry's victory, and Hamilton's duel, and Washington's death, and Boston massacre, and the companying foreign favors have and the oppressive foreign tax on lux-uries which turned Boston harbor into a teapot, and Paul Revere's midnight ride, and Rhode Island rebellion, and South Carolina nullifaction. But what a field for the chronicler of the great future when he opens the files of a hun dred standard American newspapers giving the minutiæ of all things occur ring under the social, political, ecclesi-astical, international headings! Five hundred years from now, if the world lasts so long, the student looking for stirring, decisive history will pass by the misty corridors of other centuries and say to the libraries, "Find me the volumes that give the century in which the American presidents were assassinated, the civil war enacted and the cotton gin, the steam locomotive and telegraph and electric pen and telephone and cylinder presses were invented,"

Front Wheel of the Lord's Charlot, Once more I remark that a good newspaper is a blessing as an evangelistinfluence. You know there is a great change in our day taking place. secular newspapers of the day—for I am not speaking now of the religious newspapers-all the secular newspapers of he day discuss all the questions God, eternity and the dead, and all the questions of the past, present and fu-ture. There is not a single doctrine of theology but has been discussed in the last ten years by the secular newspapers of the country. They gather up all the news of all the earth bearing on religious subjects, and then they scatter the news abroad again. The Christian newspaper will be the

right wing of the apocalyptic angel. The vlinder of the Christianized printing bress will be the front wheel of the Lord's chariot. I take the music of this day, and I do not mark it diminnendo —I mark it crescendo. A pastor on a Sabbath preaches to a few hundred, or a few thousand people, and on Monday, or during the week, the printing press will take the same sermon and preach it to millions of people. God speed the printing press! God save the printing God Christianize the printing

press!
When I see the printing press standing with the electric telegraph on the one side gathering up material, and the lightning express train on the other side waiting for the tons of folded sheets of a presence I propounce it the mightiest newspapers, I pronounce it the mightiest force in our civilization. So I commend you to pray for all those who manage the newspapers of the land, for all typeetters, for all reporters, for all editors, for all publishers, that, sitting or standng in positions of such great influence, they may give all that influence for God and the betterment of the human race. An aged woman making her living by brough the silent yet speaking newspaper may be found the vast inheritance of the world's redemption.
